

David Pegley Groundwork Contractors

ABOUT THE COMPANY

Since commencing business in 1979, David Pegley has been carrying out a wide variety of ground works and civil engineering. We provide comprehensive services to private, industrial and commercial customers. Our work includes excavations, construction of new foundations, ground beams, drainage works, etc.

We operate our own fleet of plant and machinery which can be hired to customers if required. Our equipment includes excavators from 2.5 – 14 tonnes, trenching machine, dumpers, small plant and Bitelli paving machine. All our plant, equipment and operators are certified and qualified to meet Health and Safety requirements.

The majority of our business comes from word of mouth recommendation and we pride ourselves on our reputation for quality and reliability at a competitive price. Our work spans many industry sectors including race track surfacing, airports, dairy farms and private estates. Customer testimonies and references are available on request.
